DOPPLER VELOCITY LOG DVL500-Compact - 300 m

Bottom-track from 0.3 to 175 m range; 300 m operational depth

The DVL500-Compact combines the compact design of the standard DVL1000 with the superior bottomtrack range of the DVL500. It can fly higher in the water column and closer to the seabed than similar equipment, enabling small vehicles to do bigger jobs.
